So congested are conditions in El Paso that F. L. Stiff has found it necessary to live in his garage while he completes his beautiful bungalow in Logan Heights. Mr. Stiff's home is the first to be built in this ideal addition, but many more homes are planned for early construction.

Because of the existing oil activity around the city and because of the favorable indications of discovering a great oil pool right at our very door—because of the scarcity of houses and apartments and because of the generally prosperous condition of El Paso—The Anderson Investment company endeavoring to relieve congested conditions here, secured this magnificent spot to subdivide and offer as homesites.

No more desirable or more elegant place could have been selected and that the people of the entire southwest realize this is proven by the success this progressive company is having with the sale of lots. Not only are the citizens of El Paso purchasing property in this addition, but many out-of-town orders for lots are being received daily. Especially are those who made money in real estate in the oil towns of North Texas—Ft. Worth, Wichita Falls, Ranger and Eastland—investing heavily in LOGAN HEIGHTS, for they realize, perhaps better than home people, the enormous profits to be made in real estate here, the minute the first well in this district comes in. Those who are buying this property point out that El Paso must grow Northward—anyway point to the fact that the nearest built-up residential street to Logan Heights—McKinley avenue—is considered by many the prettiest street in the city, proves that Logan Heights, too, will soon become a very exclusive home place.

They are also protected in this belief by the Anderson Investment company, selling atracts, who have placed certain restriction on this property to eliminate for all time to come certain undesirable conditions, which prove detrimental to other sections of the city.

To enable every one to share in the wonderful prosperity El Paso is now enjoying the Anderson Investment company are selling Logan Heights on a very liberal payment plan, asking only \$18 down and then \$5 per month. No interest, no taxes to be paid by the purchaser until deed is delivered. Another remarkable feature about this sale—A GUARANTEED TITLE given FREE with the purchase of two lots or more. Just buy long one will be able to purchase Logan Heights lots at the present price—\$125 and \$150 per lot—is doubtful. From present indications, however, one would predict an early advance in price.
